Sustainable Solutions, Built for Life

**Solution Engineered...
Time Tested**

- Dependable, proven long-term durability
- Exceptional roof-top performance
- Advanced weathering asphalts
- Performance enhancing polymer modified materials
- Innovative membrane reinforcements
- Built-in waterproofing redundancy
- Maintainable
- Excellent life-cycle ROI
- Superior fatigue resistance
- Performance **Built for Life**

**Designed for Durability...
A Viridian Trademark**

Our roofing materials are designed to deliver long-lasting performance through modern, state-of-the-art technology. Backed by our industry unique solutions approach, Viridian ensures you advanced, premium products, world-class service, and a team of professionals who possess the experience and integrity to champion our durability commitment.

**Sustainability...
A Philosophy of Responsibility**

Our number one priority is to maximize the life cycle of your roofing investment and eliminate the need for premature roof replacement; thereby preserving your capital. Viridian Hot-Applied Built-Up Roof Systems provide a long history of success as dependable, durable and sustainable roofing systems. These roof systems consist of multiple layers of waterproofing, which are easily maintained and historically the longest lasting on the market today. Not only are Viridian Hot-Applied Roofing Systems fiscally responsible by maximizing life cycle, but environmentally responsible as well by reducing the carbon footprint associated with roof replacement and landfill waste.

Sustainable Solutions, Built for Life

High Performance Protection

Features	Benefits
<ul style="list-style-type: none">• Various grades of asphalt and coal tar interply and floodcoat surfacing• Advanced adhesive technology• Strict raw materials standards and quality parameters• Exceptional fatigue resistance• Cold weather flexibility• Advanced weathering asphalts and innovative reinforcement materials• Polymer modified coal tar• Highly reflective surfacing options	<ul style="list-style-type: none">• Solutions to fit any budget and performance needs• Superior strength• Quality product assurance from an ISO 9001 & 14001 company• Enhanced performance and optimum weatherproofing• Resists cracking in cold climates• Long term durability• “Performance-matched” roofing systems assembled for superior long-lasting performance• Outstanding waterproofing• Energy cost savings

Viridian Systems for Maximum Weatherproofing Security

Viridian Systems leads the industry in offering the newest innovations in superior products, including **environmentally responsible** solvent-free roofing products, ply and flood coat adhesives, penetration pocket fillers and insulation adhesives. Being focused on unparalleled customer and technical service, we strive to produce the highest quality products and deliver 100% customer satisfaction.

Viridian Systems is dedicated to our product and service commitment ...
We deliver sustainable solutions built for life.
